Coastal winds are a fact of life in Cardiff Bay and Butetown. Sitting close to the water, homes here face driving rain and Atlantic weather that can test any roof, from modern apartments and newer homes around the Bay to older houses in Butetown. Redland Roofing Cardiff is an independent, family-run roofing business from South Wales that has served Cardiff and South East Wales for over 30 years. For residents and property owners in Cardiff Bay who want roofers Cardiff people trust, the team covers both flat roofing and general residential work. Flat roofing is one of the team's real specialities. Flat roofs are common across the city on rear extensions, dormers and garages, and in the Bay area they take a battering from coastal weather. The team repairs and replaces flat roofs using EPDM rubber, GRP fibreglass and felt. As general guidance, a felt flat roof lasts around 10 to 15 years, EPDM 25 to 30 years or more, and GRP 30 to 40 years. Cracked surfaces and opened joints are among the most common causes of flat roof leaks, and catching them early can save a great deal of trouble. Residential roofing covers everything else a home needs. The team handles slipped, broken and missing tiles, full roof replacement in tile and slate, new roof installation, chimney repairs, lead work, ridge tiles, dry verge, guttering, fascias and garage roofs. Every job begins with a free, no-obligation assessment, and customers often mention John, who explains the problem clearly and shows photos, and sometimes videos, of what is happening. The same service extends to nearby Grangetown, the City Centre and Splott.
