What is Crazy Time?

Launched in June 2020, Crazy Time is a live online game show built around a massive, vibrantly colored, 52-segment mechanical wheel. Operated by a charming live presenter in a vibrant, studio setting, the game integrates basic wagering mechanics with 4 unique, extremely unforeseeable bonus offer video games.

Unlike traditional gambling establishment games where gamers bet your house in a singular environment, Crazy Time promotes a shared neighborhood experience. Thousands of gamers from around the globe can take part in the very same game round, chat with one another, and commemorate wins together in real-time.

The Core Wheel Segments

Before each spin, players put bets on where they think the wheel will stop. The wheel contains numbers that pay even money or better, as well as sectors that set off the bonus rounds.

Wheel Segment Payout/ Action Possibility (Approximate) **1** Pays 1 to 1 ~ 39.23% (21 segments) **2** Pays 2 to 1 ~ 25.00% (13 segments) **5** Pays 5 to 1 ~ 13.46% (7 segments) **10** Pays 10 to 1 ~ 7.69% (4 sectors) **Coin Flip** Triggers Bonus Round ~ 7.69% (4 sections) **Cash Hunt** Activates Bonus Round ~ 3.85% (2. sections) **Pachinko** Sets Off Bonus Round ~ 3.85% (2 sections) **Crazy Time** Activates Bonus Round ~ 1.92% (1 section)

The Top Slot Feature

Including an additional layer of anticipation to each and every single round is the **Top Slot**, a two-reel mini fruit machine positioned directly above the main cash wheel.

As the live host encourages players to position their bets, the Top Slot spins at the same time with the primary wheel. It produces:

1. **A Bet Spot:** One of the wheel numbers or perk video games.
2. **A Multiplier:** A multiplier value varying from 2x as much as 50x.

If the main wheel stops on the exact bet area that aligns with the Top Slot's choice, the multiplier is used to that win. For standard numbers, the payment is multiplied. For bonus offer rounds, the multipliers use to the initial worths inside the bonus game, setting the stage for potentially enormous payments.

The Four Immersive Bonus Rounds

The true body and soul of Crazy Time are its four interactive reward rounds. Whenever the wheel arrive at a reward sector, all gamers who placed a bet on that particular sector get to participate.

Wheel with Massive Multipliers.

1. Coin Flip

The simplest and most frequent perk round. The host steps up to a machine that turns a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are designated to each side of the coin.
- The coin is automatically flipped, and whichever side lands face-up identifies the winning multiplier for the participating gamers.

2. Money Hunt

This transforms the screen into an enormous interactive shooting gallery including a screen with **108 random multipliers**.

- The multipliers are hidden behind different symbols (like a cactus, target, chef's hat, etc) and after that mixed.
- Gamers are given a crosshair to aim and fire at a sign of their choice before the timer runs out.
- As soon as time ends, all symbols reveal their covert multipliers, and gamers get the multiplier corresponding to the target they shot.

3. Pachinko

Influenced by the conventional Japanese arcade game, this reward bitz.io round happens in front of a big physical wall **Crazy Time Free Play** filled with physical pegs.

- At the bottom of the wall are numerous multiplier zones, together with an unique " **DOUBLE**" zone.
- The host drops a puck from the top of the wall. As the puck bounces arbitrarily down through the pegs, it eventually lands in one of the multiplier slots at the bottom.
- If the puck arrive on "DOUBLE," all multipliers on the board are doubled, and the host drops the puck once again for an even larger prize.

4. Crazy Time

The ultimate bonus offer round takes players behind a red door into a dynamic, virtual, Alice-in-Wonderland-style world featuring an enormous 64-segment wheel.

- Gamers need to select among three flappers (Green, Blue, or Yellow) at the top of the wheel.
- The host presses a giant red button to spin the wheel.
- The wheel features huge multipliers, "DOUBLE," and "TRIPLE" segments. If a flapper lands on a double or triple, all multipliers on the wheel are increased appropriately, and the wheel spins once again. This can duplicate up until an incredible **20,000 x max multiplier** is reached.

Methods and Approaches for Players

Due To The Fact That Crazy Time is eventually a video game of chance regulated by Random Number Generators (RNGs) and physical mechanics, no strategy can ensure a win. However, players typically approach the game using a few unique designs:

- **The Low-Risk Approach:** Focusing greatly on the number sectors (1 and 2) which make up the huge bulk of the wheel. This technique focuses on smaller, more regular payments to extend gameplay time.
- **The Bonus Hunter Strategy:** Placing smaller sized wagers exclusively on the 4 bonus rounds (Coin Flip, Cash Hunt, Pachinko, Crazy Time). This method accepts regular droughts in exchange for the chance to get involved in the game's highest-paying rounds.
- **The Balanced Approach:** Spreading bets throughout both numbers and perk rounds to ensure a mix of stable gameplay and access to high-value benefit functions.
