- **The Outcome:** The speaker presses a huge red button to spin the wheel. Whichever sector lines up with the gamer's selected flipper determines their prize. If the wheel arrive at "DOUBLE" or "TRIPLE," all multipliers on the wheel are doubled or tripled, and the wheel spins again. This process can duplicate, potentially resulting in the video game's optimum promoted payout of 20,000 x the bet.

Techniques and Approach

    - Focusing heavily on numbers 1 and 2, which make up a considerable portion of the wheel. This technique yields frequent, smaller wins that help sustain the gamer's balance for a longer period.
- **The Bonus Hunter Approach:**
    - Wagering solely or predominantly on the four perk rounds (Coin Flip, Cash Hunt, Pachinko, and Crazy Time). Since these segments appear less regularly on the wheel (only 9 sectors overall), this approach involves longer dry spells in exchange for access to the game's main function destinations.
