### What is a Solana Casino?

A Solana casino is an online gambling platform that natively integrates the Solana blockchain (£ SOL) and its associated SPL tokens for deposits, wagering, and withdrawals. Unlike traditional online casinos that rely on fiat currency (GBP, EUR) and slow banking rails, or older blockchains that experience high latency, Solana casinos take advantage of decentralized innovation to use immediate, transparent, and often anonymous video gaming experiences.

The majority of Solana-based casinos feature a wide variety of video games, ranging from traditional table games like Blackjack and Roulette to contemporary provably reasonable crypto originals (Crash, Plinko, and Mines) and immersive slot devices.
