2. **A Weapon Case Key:** Purchased straight within the game client for a flat rate (typically around £ 2.50 GBP).

Once unlocked, the case spins through a visual live roulette before landing on a single product, which is then added directly to the gamer's inventory.

Types of CS2 Cases

Valve categorizes cases in a few different ways, which directly impacts their rarity and market worth:

- **Active Drop Pool Cases:** Cases presently dropping to players playing on main servers.
- **Unusual (Discontinued) Pool Cases:** Older cases that no longer drop actively, making them scarcer over time.
- **Commemorative/Major Cases:** Souvenir plans dropped during official Counter-Strike Major competitions, which do not need a crucial to open.

CS2 Case Drop Mechanics

Gamers typically question how to secure cases without investing cash. Valve utilizes a weekly drop system for active gamers with Prime status.

- **Active Drop Pool Rotation:** Valve often updates which cases drop actively. When a case is relocated to the "Rare Drop Pool," its drop rate drops to a fraction of a percent per drop, often triggering its market value to rise.
