

- Proper installation matters enough to outweigh small differences between materials in many homes.

An experienced company can confirm the cause with a quick inspection.

If the old unit is already sticking, leaking, or showing storm damage, the replacement conversation should include the opening, not just the door skin.

When a door has taken repeated weather abuse, replacement often makes more sense than trying to nurse it along with temporary fixes.

Either can be a good upgrade, but the best results come from matching the material to the house, the exposure, and the way the [Coppell Window Replacement 469-564-3852](https://www.coppellwindow.com) home is actually used.
