What is the Aviator Game?

Developed by Spribe, Aviator is a social multiplayer game coming from the "crash game" category. Unlike conventional casino games where outcomes are identified by spinning reels or dealing cards, Aviator revolves around an escalating multiplier represented by a rising plane.

The principle is simple:

1. **Place a bet** (or more bets all at once) before the round starts.
2. **Enjoy the airplane take off**, accompanied by a multiplier that begins at 1.00 x and increases quickly.
3. **Cash out** before the plane flies away (crashes).
4. If a player squanders effectively, they win their stake increased by the existing value. If the plane flies away before they squander, the bet is lost.

The unpredictability of when the airplane will fly away-- varying from 1.00 x to theoretically infinity-- develops a high-stakes environment driven by timing and nerve.
