The Four Extravagant Bonus Rounds

The piece de resistance of the Crazy Time casino video game is its four reward rounds. Players must position a bet on the specific benefit sector to get involved, though anyone can view the action unfold.

1. Coin Flip

This is the most [crazy time demo](#) basic and most frequent benefit round.

- **The Setup:** An easy coin with a red side and a blue side is put on a mechanical flipper.
- **The Action:** Each side of the coin is arbitrarily assigned a multiplier before the flip. The host presses a button, the coin turns, and whichever side lands face-up figures out the player's multiplier payout.

2. Money Hunt

Step right as much as an enormous virtual shooting gallery.

- **The Setup:** A screen displays 108 random multipliers hidden behind numerous shooting gallery targets (such as a cactus, a target, or a chef's hat).
- **The Action:** Players are given a brief countdown to objective and fire a virtual cannon at a target of their option. When the timer ends, all targets expose their covert multipliers, and the player is granted whatever multiplier their picked target concealed.

3. Pachinko

Influenced by the conventional Japanese arcade video game, Pachinko is everything about gravity and anticipation.

- **The Setup:** A large Pachinko wall filled with a grid of physical pegs is displayed on screen. At the bottom are several landing zones, each including a multiplier.
- **The Action:** The game host drops a radiant puck from the top of the board. As the puck bounces randomly down through the pegs, it ultimately settles into one of the bottom multiplier zones. If the puck lands on a "DOUBLE" zone, all the bottom multipliers double, and the host drops the puck once again for even bigger wins.

4. Crazy Time

The holy grail of the video game. Hitting this single segment on the wheel carries the gamer behind a red door into a surreal, whimsical virtual world.

- **The Setup:** Behind the door lies an enormous virtual wheel including 64 sectors packed with huge multipliers and "DOUBLE" or "TRIPLE" segments. Three flappers (Green, Blue, and Yellow) sit at the top of the wheel.
- **The Action:** The player chooses among the three flappers before the wheel spins. When the wheel stops, the player wins the multiplier indicated by their selected flapper. If it lands on a "DOUBLE" or "TRIPLE," the wheel spins once again, and all multipliers on the board are increased appropriately, approximately an optimum cap of 20,000 x.

Tips and Strategies for Playing Crazy Time
