What is Crazy Time?

Launched in 2020 by Evolution Gaming, Crazy Time is a live dealership game show built on the enormous success of earlier titles like *Dream Catcher* and *Monopoly Live*. Embed in a dynamic, Willy Wonka-style studio, the game is hosted by passionate speakers who spin a giant, 52-segment mechanical wheel.

Unlike standard casino games where gamers play against your home in seclusion, Crazy Time is a common experience. Countless players from around the world can see the same spin, chat in the live stream, and commemorate or commiserate together when the wheel stops.

Core Game Components

- **The Main Wheel:** Contains 54 segments featuring numbers (1, 2, 5, and 10) and 4 unique reward round symbols.
- **The Top Slot:** A two-reel mini slot perched above the main wheel. Before each and every single spin, the Top Slot creates a random multiplier for a random wheel segment. If the wheel arrive on that section and a multiplier is attached, payments can increase.

Understanding the Wheel Segments and Payouts

To play effectively, participants need to understand what the wheel represents. The 54 segments are dispersed among numbers and perk video games, offering different possibilities and maximum payments.

Wheel Segment Number of Segments Payout Ratio Probability (%) **1** 21 1:1 38.89% **2** 13 2:1 24.07% **5** 7 5:1 12.96% **10** 4 10:1 7.41% **Coin Flip** 4 Perk Round 7.41% **Cash Hunt** 2 Bonus Round 3.70% **Pachinko** 2 Benefit Round 3.70% **Crazy Time** 1 Reward Round 1.85%

As seen in the table, the number **1** appears most regularly, making it a safer, lower-variance bet, while the elusive **Crazy Time** bonus offer round just appears as soon as, making it the rarest and most rewarding sector on the board.

The Four Thrilling Bonus Rounds

The true heartbeat of Crazy Time games is found in its four interactive bonus offer rounds. When the wheel arrive on among these sectors, players who put a wager on that reward are transported <https://bitz.io/games/crazy-time> from the primary studio into a secondary augmented-reality mini-game.

1. Coin Flip

- **The Setup:** An easy red and blue coin is turned by a mechanical flipper.
- **How it Works:** Before the flip, each side of the coin is assigned a random multiplier. Whichever color lands face-up pays out that multiplier to the gamer. It is the most regular reward round, offering busy action.

2. Money Hunt

- **The Setup:** A huge screen showing a shooting gallery filled with 108 random multipliers.
- **How it Works:** The multipliers are covered by different signs (such as a cactus, a target, or a constable's badge) and then mixed. Gamers are provided a limited countdown timer to goal and fire a cannon at a symbol of their option, exposing the multiplier hidden below it.

3. Pachinko

- **The Setup:** A massive Pachinko wall featuring a glowing pegboard and a series of drop zones at the bottom.
- **How it Works:** The host drops a puck from the top of the wall. As it bounces arbitrarily off the pegs, it ultimately lands in one of the slots at the bottom, which contains a multiplier. If the puck lands on a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped again for massive prospective wins.

4. Crazy Time

- **The Setup:** The host opens a red door, exposing an enormous, mind-bending virtual world including a huge wheel with 64 segments.
- **How it Works:** Players pick one of three flippers (Green, Blue, or Yellow). The host spins the wheel, and whichever sector the selected flipper indicate is the winner. Much like Pachinko, landing on "DOUBLE" or "TRIPLE" increases all the values on the wheel and sets off a re-spin, leading up to the video game's optimum cap of 20,000 x.
