What is Big Bass Crash?

For several years, the *Big Bass* series controlled online gambling establishments through standard video slots featuring angler wilds, fish cash signs, and free spin retriggers. In a crash video game, players place a wager before a round starts. As the round starts, an object (in this case, the fisherman setting off in his boat) begins to move, and a multiplier gradually increases. The objective is simple yet nerve-wracking: **squander before the action crashes**. If the boat crashes before the gamer cashes out, the bet is lost.
