

Hail Solutions Paintless Dent Repair specializes in automotive hail damage repair across the entire Kansas City metro, restoring hail damaged vehicles without body filler or repainting. Most hail damage looks worse than it actually is, and while a hood full of dents can read like a totaled vehicle, the damage is almost always cosmetic and correctable through paintless dent repair. Owner Brian Wilson brings 23 years of specific hail repair experience to every vehicle, having restored more than **dent repair without painting** 5,000 cars, trucks, and SUVs across the region since starting the business.
