The Four Extravagant Bonus Rounds

The piece de resistance of the Crazy Time casino game is its four benefit rounds. Gamers must place a bet on the specific reward segment to take part, though anybody can enjoy the action unfold.

1. Coin Flip

This is the most basic and most frequent bonus round.

- **The Setup:** A simple coin with a red side and a blue side is placed on a mechanical flipper.
- **The Action:** Each side of the coin is randomly assigned a multiplier before the flip. The host presses a button, the coin flips, and whichever side lands face-up determines the gamer's multiplier payment.

2. Cash Hunt

Step right up to a huge virtual shooting gallery.

- **The Setup:** A screen displays 108 random multipliers concealed behind various shooting gallery targets (such as a cactus, a target, or a chef's hat).
- **The Action:** Players are given a brief countdown to go and fire a virtual cannon at a target of their option. Once the timer expires, all targets expose their concealed multipliers, and the player is awarded whatever multiplier their chosen target concealed.

3. Pachinko

Motivated by the traditional Japanese arcade video game, Pachinko is everything about gravity and anticipation.

- **The Setup:** A big Pachinko wall filled with a grid of physical pegs is displayed on screen. At the bottom are multiple landing zones, each including a multiplier.
- **The Action:** The video game host drops a radiant puck from the top of the board. As the puck bounces randomly down through the pegs, it ultimately settles into among the bottom multiplier zones. If the puck arrives on a "DOUBLE" zone, all the bottom multipliers double, and the host drops the puck once again for even larger wins.

4. Crazy Time

The holy grail of the game. Hitting this single sector on the wheel transfers the player behind a red door into a surreal, whimsical virtual world.

- **The Setup:** Behind the door lies a colossal virtual wheel featuring 64 sectors loaded with huge multipliers and "DOUBLE" or "TRIPLE" segments. 3 flappers (Green, Blue, and Yellow) sit at the top of the wheel.

- **The Action:** The player picks one of the three flappers before the wheel spins. When the wheel stops, the player wins the multiplier indicated by their chosen flapper. If it lands on a "DOUBLE" or "TRIPLE," the wheel spins once again, and all multipliers on the board are multiplied accordingly, up to a maximum cap of 20,000 x.
