1. Coin Flip

The most basic and most frequent reward game. A coin with a red side and a blue side is flipped by a mechanical flipper. Before the flip, each side is assigned a random multiplier. Whichever side lands face up awards the player that multiplier.

2. Cash Hunt

This is a massive interactive shooting gallery. A screen shows 108 random multipliers concealed behind various symbols (like a cactus, a target, or a chef's hat). Gamers use an on-screen crosshair to select a target before a countdown timer ends, exposing the multiplier beneath.

3. Pachinko

Motivated by the standard Japanese arcade video game, this bonus round features a big physical wall filled with pegs. The host drops a puck from the top, and it bounces down through the labyrinth up until it lands in among the multiplier zones at the bottom. If the puck arrive on a "DOUBLE," all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

This is the supreme bonus round. The host opens a red door leading into a surreal, whimsical virtual world including a huge, 64-segment mega wheel. Players need to choose among 3 flippers (Green, Blue, or Yellow). The wheel is spun, and whatever section the selected flipper points to is the reward. This round can include "DOUBLE" and "TRIPLE" sectors, allowing multipliers to reach up to an astonishing **20,000 x**.

- Place bets exclusively on the 4 bonus rounds (**Coin Flip, Cash Hunt, Pachinko, Crazy Time**). This is a high-risk, high-reward method. You will experience longer dry spells of missing out on the benefits, but when you hit one, the payments are considerably higher.

- **The Spread Strategy:**

- Cover a broader range of outcomes by wagering on multiple numbers and benefits at the same time. This ensures you take part in a high portion of the spins, though it requires careful budget plan management.

Necessary Bankroll Management Rules

1. **Set a Budget:** Decide in advance how much cash you are ready to lose and stick strictly to that limit.
2. **Never Ever Chase Losses:** If you struck a losing streak, accept it and step away. Chasing losses typically causes negligent wagering.
3. **Treat it as Entertainment:** View the cash spent on bets as the expense of admission for an entertaining show, rather than an investment or ensured earnings source.
