Understanding the Wheel Segments

The 54-segment wheel is divided into numbers and perk game signs. Each number represents a payout multiplier (e.g., a bet on '1' pays 1:1, '2' pays 2:1, etc), while the symbols activate the perk rounds.

Here is a breakdown of how the wheel is dispersed:

- **Number 1:** 21 segments
- **Number 2:** 13 segments
- **Number 5:** 7 sectors
- **Number 10:** 4 sectors
- **Coin Flip:** 4 sections
- **Pachinko:** 2 segments
- **Cash Hunt:** 2 sectors
- **Crazy Time:** 1 section

Because the reward rounds appear less frequently on the wheel, they are the most awaited outcomes of the game.

The Four Thrilling Bonus Rounds

The real magic of Crazy Time happens when the wheel arrive on a bonus offer section. Gamers who have actually placed a wager on that specific bonus offer are carried from the primary <https://bitz.io/games/crazy-time> game studio into a secondary augmented-reality or physical perk round.

1. Coin Flip

- **Frequency on Wheel:** 4 segments
- **How it works:** A simple red-and-blue coin is flipped by a machine. Before the flip, a random multiplier is appointed to both the red and blue sides. Whichever side lands face up wins the multiplier for the player. If the multipliers are low, a "Rescue Flip" can in some cases be triggered for another chance at higher rewards.

2. Pachinko

- **Frequency on Wheel:** 2 sectors
- **How it works:** Inspired by the traditional Japanese arcade video game, players are revealed an enormous Pachinko wall filled with pegs. The host drops a puck from the top, and it bounces down arbitrarily until it lands in among the multiplier slots at the bottom. If the puck arrive on a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped again.

3. Cash Hunt

- **Frequency on Wheel:** 2 sectors
- **How it works:** A huge screen shows 105 random multipliers concealed behind shooting gallery symbols (like stars, targets, and bunnies). Players use a virtual crosshair to intend and contend one sign before the countdown timer ends. Once the timer ends, all signs reveal their covert multipliers, and players receive the multiplier representing their picked target.

4. Crazy Time

- **Frequency on Wheel:** 1 segment
- **How it works:** This is the ultimate perk round. The host opens a red door to reveal a gigantic, surreal virtual world with an even larger wheel. Gamers should select one of 3 flappers (Green, Blue, or Yellow). The wheel is spun, and whatever multiplier the selected flapper points to is awarded. Simply like Pachinko, landing on "DOUBLE" or "TRIPLE" increases all the worths on the wheel for a re-spin, resulting in possibly shocking payouts.

Key Features That Elevate the Gameplay

Crazy Time stands out in the crowded online gaming market due to several ingenious style options:

- **Top Slot Multipliers:** Before every spin of the primary wheel, a mini slot maker spins above it. It produces a random wheel sector and a random multiplier (up to 50x). If the main wheel lands on that segment, the payout is multiplied accordingly.

- **High Production Value:** The studio modifications viewpoint, utilizes advanced CGI, and features expert, extremely interesting hosts who interact with the live chat.
- **Social Experience:** Players from all over the world share the exact same video game session, commemorating enormous wins together in the live chat box.

Tips and Strategies for Playing Crazy Time

While Crazy Time is primarily a game of chance determined by a random number generator (RNG) and physical wheel physics, gamers frequently use certain strategies to manage their bankroll and maximize their session time.

- **Diversify Bets:** Many players select to spread little bets across multiple numbers and bonus rounds to ensure they receive the benefit video games, which hold the greatest entertainment and payment worth.
- **Focus on Bonus Hunting:** Since the bonus offer rounds are where the highest multipliers live, some gamers specifically bet on the 4 bonus sections (Coin Flip, Pachinko, Cash Hunt, Crazy Time), accepting that they will lose out on the smaller, frequent number wins.
