Nobody likes calling a contractor without knowing what the job might cost. When it comes to pest problems, the uncertainty can be even worse, because you do not know how big the infestation is or what treatment will involve. Perdue Exterminators keeps things straightforward. Homeowners can call for a free estimate on termite work, and bed bug concerns start with a free inspection and consultation.

The estimate begins with understanding the problem. Perdue's licensed exterminators inspect the home's environment and construction to identify the issue and its source, then lay out a recommended course https://ameblo.jp/beaubaqv715/entry-12985256973.html of action. For termites, that means looking at the foundation, crawl space, wood to soil contact and moisture sources to decide on the right treatment. For bed bugs, it means confirming that bed bugs are actually present and mapping how far they have spread.

Clarity at the start avoids wasted money later. Many people spend significant amounts on store bought sprays and foggers that never reach the real problem, especially with termites and bed bugs. A professional assessment tells you exactly what you are dealing with, and Perdue's insect identification service is there for anything unusual. Sometimes the answer is that the insect is harmless and a few simple changes will take care of it.

Perdue Exterminators | 4323 Old Cave Spring Rd, Roanoke, VA 24018 | (540) 989-8188

Reasonable Rates From a Local Company

Perdue lists prompt response times, reasonable rates and dependable exterminators among its priorities, along with a heavy emphasis on customer satisfaction. As a family owned company based on Old Cave Spring Road since the early 1980s, it answers to local customers rather than a distant head office, and its technicians have decades of experience solving problems efficiently. Experienced technicians tend to find the source faster, which keeps visits focused and avoids paying for treatment that was never needed.

Termite treatment from Perdue comes with renewable annual warranties, which makes long term costs easier to plan. Rather than paying for repeated emergency treatments, homeowners can maintain protection year after year with professional inspections built in. For real estate transactions, wood destroying insect reports, water testing and septic inspection pest control company Roanoke reports are available as well.

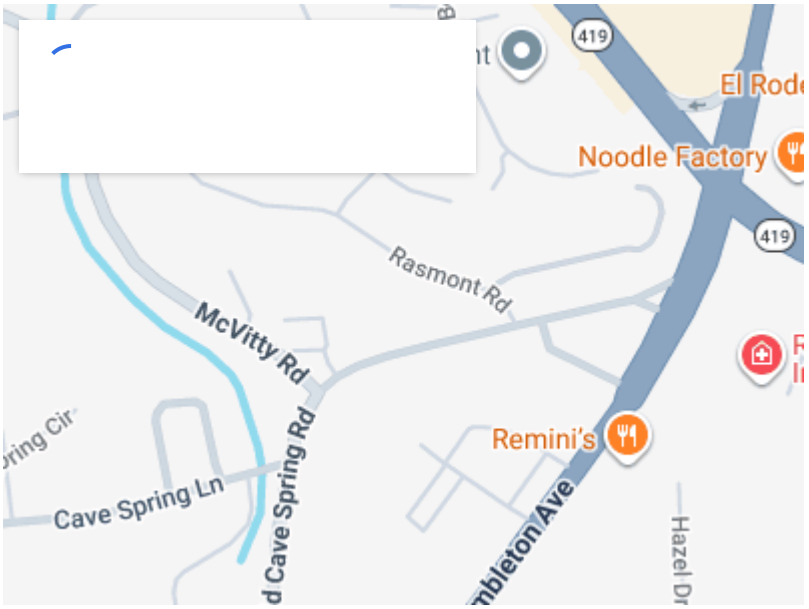

When you call, have a few details ready: what you have seen, where and how long it has been happening. That helps the office schedule the right visit.

To request a free estimate in Roanoke, Salem, Vinton or Smith Mountain Lake, call Perdue Exterminators at (540) 989-8188. The office is located at 4323 Old Cave Spring Rd, Roanoke, VA 24018.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
