Complete with vibrant studio sets, immersive sound design, and seamless integration of computer-generated images (CGI), gamers feel as though they have stepped onto the set of a high-stakes prime-time tv program.

The Anatomy of the Wheel

The 54 sectors of the Crazy Time wheel are divided into numbers and bonus games. Each section offers various payment potentials and probabilities.

Wheel Segment Payment/ Function Overall Segments on Wheel Possibility (%) **Number 1** Pays 1:1 21 38.89% **Number 2** Pays 2:1 13 24.07% **Number 5** Pays 5:1 7 12.96% **Number 10** Pays 10:1 4 7.41% **Coin Flip** Sets Off Bonus Round 4 7.41% **Cash Hunt** Triggers Bonus Round 2 3.70% **Pachinko** Sets Off Bonus Round 2 3.70% **Crazy Time** Activates Bonus Round 1 1.85%

The Top Slot Feature: Adding Extra Spice

Before every single spin of the main wheel, a secondary two-reel slot maker spins above the primary game. This is understood as the **Top Slot**.

1. **Reel 1** display screens among the betting sectors (a number or a perk game).
2. **Reel 2** displays a multiplier value (varying from 2x approximately 50x).

If the arbitrarily selected sector and multiplier align horizontally on the Top Slot, a multiplier is used to that particular bet or bonus offer round for the upcoming spin. If the wheel lands on that section, all wins connected with it are increased accordingly, leading to a few of the video game's most excellent payments.

The Four Immersive Bonus Rounds

The true heart of the Crazy Time experience lies in its 4 unique perk rounds. Whenever the wheel arrive on a perk segment, participating players are transferred to a brand-new mini-game, complete with special mechanics and enormous multiplier potentials.

1. Coin Flip

- **Trigger:** Landing on the Coin Flip section (4 spots on the wheel).
- **How it works:** A simple yet thrilling game of possibility. A coin with a red side and a blue side is turned by a mechanical flipper. Before the flip, random multipliers are assigned to both the red and blue outcomes. Whichever side lands face up wins the designated multiplier for the player.

2. Cash Hunt

- **Trigger:** Landing on the Cash Hunt section (2 spots on the wheel).
- **How it works:** Players deal with an enormous virtual screen featuring a grid of 108 random multipliers concealed behind shooting targets. A countdown starts, and players should utilize a virtual cannon to aim and contend a target of their choice. When time ends, all targets reveal their covert multipliers, and the player wins whatever value their picked target concealed.

3. Pachinko

- **Trigger:** Landing on the Pachinko section (2 areas on the wheel).
- **How it works motivated by the standard Japanese arcade video game:** A glowing puck is dropped from the top of a big Pachinko wall filled with pegs. The puck bounces randomly down the board up until it lands in one of the landing zones at the bottom, each containing a multiplier. If the puck arrive on a "DOUBLE" value, all multipliers at the bottom of the wall double, and the puck is dropped again for even greater stakes.

4. Crazy Time

- **Trigger:** Landing on the Crazy Time sector (just 1 spot on the wheel).
- **How it works:** The crown jewel of the video game. The host opens a red door, leading gamers into a surreal, vibrantly colored virtual world featuring an enormous, 64-segment wheel.
- **The Process:**
 - Players should select one of three flippers (Green, Blue, or Yellow).
 - The host spins the giant wheel.
 - Whichever sector the selected flipper points to when the wheel stops is the multiplier awarded to the gamer.
 - Just like Pachinko, if the wheel stops on "DOUBLE" or "TRIPLE," all multipliers on the wheel boost significantly, and the wheel spins once again-- scaling up to an optimum possible multiplier of 20,000 x.
