There is a good reason homeowners in Heath keep a close eye on their roofs. Welsh weather is hard on any property, with a wet climate, driving rain and freeze-thaw cycles all working away at tiles, flashing and gutters year after year. Redland Roofing Cardiff is an independent, family-run roofing business from South Wales that has served Cardiff and South East Wales for over 30 years. Households across Heath call on the team when they need roofers Cardiff residents recommend, people who turn up when they say they will and explain things clearly. Heath has a broad mix of homes, and the roofing work reflects that. Pitched roofs need attention when tiles slip, crack or go missing, when ridge tiles work loose or when dry verge fails. Chimneys need repointing and fresh flashing from time to time, and lead work eventually wears out. Flat-roofed rear extensions, dormers and garages are common too. The team handles all of it, including standard roof repairs, roof replacement, new roof installation, flat roof repair and replacement in EPDM rubber, GRP fibreglass and felt, chimney repairs and removal, guttering and fascias. It all starts with a free, no-obligation assessment. Customers regularly mention John, who comes out to look at the roof, explains the problem clearly and shows photos, and sometimes videos, of the issue and the before and after stages of the work. That transparency helps Heath homeowners make an informed decision. The team will not recommend a replacement if a repair will do. Conservatory roofing is also available, using Metrotile lightweight tiled conservatory roofs. The same service covers nearby Cathays, Llanishen and Birchgrove.
