What is a Kenya Live Casino?

At its core, a live casino is an online video gaming platform that streams real-time table games from expert studios or real land-based casino floorings. Instead of playing against a Random Number Generator (RNG) algorithm, gamers interact with human dealerships by means of high-definition video feeds.

Players can position bets using their computers, tablets, or mobile phones, while interacting with the dealership and fellow players by means of a live chat Online Casino Games feature. This produces an immersive, authentic social environment without needing players to leave their homes.

How Live Casinos Operate

1. **The Studio/Casino Floor:** Games are hosted in high-tech studios equipped with multiple cams capturing every angle of the table.
2. **The Dealer:** Professional, captivating, and extremely trained croupiers manage the video game, spin the wheels, and deal the cards.
3. **The Game Control Unit (GCU):** Every table includes a GCU-- a device roughly the size of a shoebox-- that encodes the video broadcast and equates physical actions (like a card being dealt) into digital data that the player's screen displays.
4. **The User Interface:** Players use an user-friendly digital overlay on their screens to position chips, make side bets, and track video game stats.
