In a normal crash game:

1. Players place a wager before a round starts.
2. A thing (often a rocket, jet, or, in this case, an aircraft) takes off.
3. As the object gains altitude, a multiplier worth increases (e.g., 1.00 x, 1.50 x, 2.00 x, and beyond).
4. Gamers need to choose the ideal moment to **squander** before the item arbitrarily "crashes" or disappears.
5. If a gamer cashes out successfully, they win their original stake multiplied by the existing worth. If the thing crashes before they squander, the bet is lost.

Avia Masters takes this beloved mechanic and refines it with immersive visuals, smooth animations, and an user-friendly user interface that attract both beginners and veterans.
