Ask a Roanoke neighbor who handles their bugs and there is a fair chance the answer is Perdue Exterminators. The company has been working out of the Cave Spring area of southwest Roanoke County since S.G. Perdue started it in 1969, and it is still a family owned pest control company today. That kind of staying power does not happen by accident in a valley where termites, ants, mice and spiders all compete for space inside local homes.

A Local Company With Deep Roots

S.G. Perdue began the business from his house and the trunk of his car. His son Andre joined the work after coming home from the military, and in the early 1980s the family bought property on Old Cave Spring Road and built the office that customers still visit today. Jeff Hudson now leads the company as owner and President, carrying forward the same idea the business has always run on: large enough to serve you, but small enough to know you.

That motto shows up in how the work gets done. Rather than sending a different stranger every visit, Perdue keeps a small, experienced crew of technicians who know the Roanoke Valley, its older housing stock and the way Virginia humidity drives pest activity from spring through fall. When a technician has spent decades crawling under homes in Raleigh Court, Salem and Vinton, they recognize a moisture problem or an ant trail long before a newer company would.

Perdue Exterminators | 4323 Old Cave Spring Rd, Roanoke, VA 24018 | (540) 989-8188

residential pest control Roanoke

The service list covers what most households and businesses in the area actually run into. General pest control, termite elimination with renewable annual warranties, cockroach, bed bug, ant, rodent, spider and cricket control, flying insect work and insect identification are all handled in house. For buyers and sellers, the team also prepares wood destroying insect reports, water testing and septic inspection reports, which keeps real estate deals moving without a second contractor.

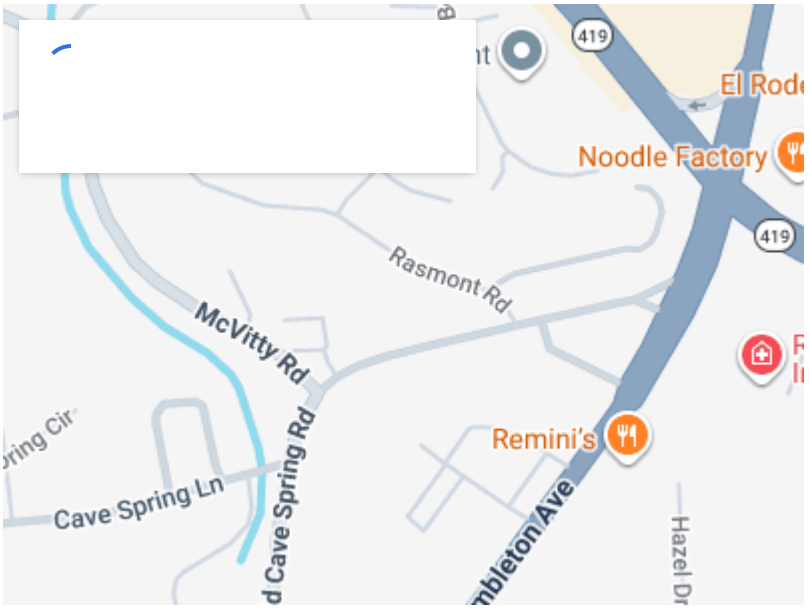

Customers also tend to stay. Reviews on the company website describe families who have relied on Perdue every year for all their pest needs, technicians who take extra care spraying around toddlers and pets, and timely service when a problem pops up. That loyalty is built one visit at a time, and it is the clearest sign that a small, local company can outperform bigger names that rotate staff and lean on call centers. Crawl space mold control rounds out the list for homes where moisture has become a problem of its own.

If you are searching for a pest control company in Roanoke that answers its own phone and treats your home like a neighbor's, give Perdue Exterminators a call at (540) 989-8188. The office sits at 4323 Old Cave Spring Rd, Roanoke, VA 24018, and the team serves Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding Roanoke Valley.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure

returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
